5 February 1982

MEMORANDUM FOR: Deputy Director for Administration

FROM: John N. McMahon
Executive Director

SUBJECT: New Building

Fitz:

1. I continue to be uneasy with the thought that the new building we have on the drawing board, the size of which we have already briefed to the National Capital Planning Commission and other notable and necessary organizations around town, is already obsolete when it comes to being big enough to house our anticipated personnel.

2. I know the building planning folks will panic at the thought of this but I would like to go over one more time why we should not make the necessary adjustments in the size of the building to accommodate on campus the number of Agency personnel we know we will have to house.

3. I guess we need a conversation, but I think we would be doing an injustice to ourselves as well as the entire Executive/Congressional approval mechanism to go forward with a building we already know is too short.
